Invitation to Attend

Dear Colleagues

It is a great pleasure to invite you participate in to the 44th European Calcified Tissue Society Congress to take place from 13 to 16 May 2017 in the beautiful Austrian city of Salzburg, which lies at the geographical crossing point of many European destinations.

ECTS serves as a forum for researchers and clinicians working in the musculoskeletal field to join forces, discover and discuss the latest advances and controversies in research and in the daily care of patients. With almost 600 abstracts submitted for the 2016 ECTS Congress the signs are that the level of science at the Salzburg Congress will be higher than ever.

The Scientific Programme Committee is made up of ECTS leaders, international experts and young and talented physicians and scientists active in the various fields of bone diseases. Their aim is to set up a world class event during which every attendee can be sure of finding relevant and stimulating sessions. The Committee will programme the best in science, therapeutic developments and innovation in our field.

During the ECTS 2017 Congress, we will continue building on the success of past editions by further developing the concept of Villages in the Exhibition Hall, as well as the use of new technologies for greater interaction and to extend the life-span of the Congress.

We welcome you to join us in the preparations for the ECTS 2017 Congress and to contribute to the scientific excellence of this event by sharing your company’s latest research, services and clinical cases.

We thank you in advance for your continued support and we look forward to welcoming you to Salzburg for another stimulating and rewarding ECTS Congress!
